EMPLOYEE SPOTLIGHT

What was your starting position, and with which company? What is your current position, with which company?

Service Coordinator w/ Service Department;
now Assistant Manager w/ Service Department.

How long have you worked at eci?

6 months.

What is your favorite thing about your job and the company you work for?

The kind, respectful people and the calm, professional atmosphere; getting to work with people I enjoy.

What are your hobbies?

Mostly I'm busy with my family, but when I do have free time I enjoy reading, starting projects around the house to tinker on, playing sports (particularly volleyball), or playing video games. I'm also a big movie buff.

What is something about you that your co-workers might not know?

I got my black belt in Tae Kwon Do when I was younger all because of my love for the "3 Ninjas" movies.

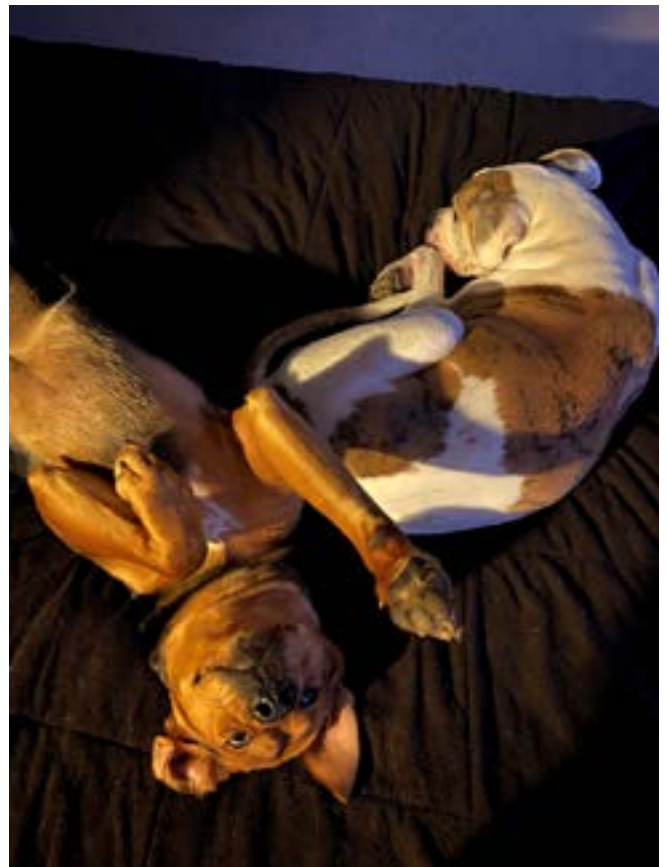

If you were stranded on a deserted island with only one thing, what would you take?

A Kindle Reader – I'm trying to read and relax in the peace and quiet!

What else is there you would like to share?

Not much, just thank everyone for being so welcoming!

CALVARY EVANGELICAL LUTHERAN CHURCH

Calvary Evangelical Lutheran Church is in the final phase of its 3 phase construction project. The design for the project started in early 2019, with the first construction phase beginning in mid-2019. By late 2019 eciConstruction completed the design of the 2nd construction phase.

Due to funding, it was decided to only do a portion of phase 2, which was completed in late 2020 because of delays related to the COVID-19 pandemic. Then the remaining work was re-priced. In early 2022 the Church decided that they wanted to proceed with the project. The pricing was then updated again and approved by their committee. Construction for the third and final phase will begin on April 25 and last approximately 4 months. The concept pictures featured are of the third phase.

Jason Barlup worked on the project in the beginning and priced construction phases 1 and 2. Doug Shearer updated the phase 2 pricing when they decided to proceed and priced phase 3 alongside Midstate.

HERITAGE INVESTMENT SERVICES FUND

Demolition means the start of a new renovation project!

Recently, eciConstruction began renovations on the Heritage Investment Services Fund project. The building was originally constructed in the 1980s, so the owner wanted the remodel to follow a new contemporary style to liven up the building.

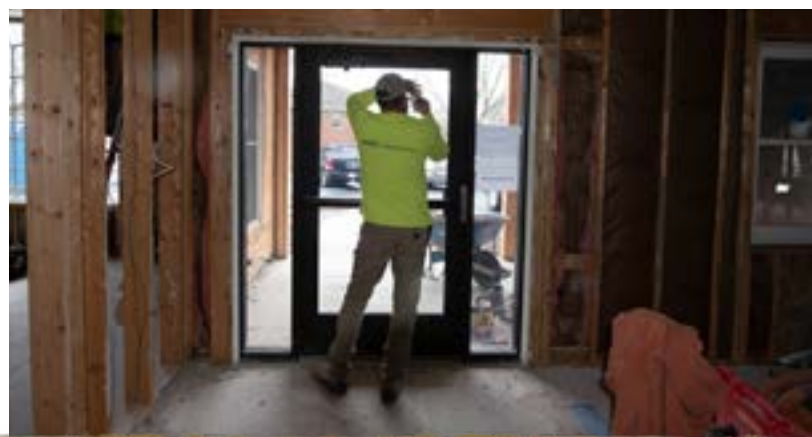

For the past two weeks, the eciConstruction crew has been demolishing the interior/exterior of the building in preparations for the project's renovations. The interior demolition consists of removing all finishes and partitions, which will then be replaced with brand new partitions and finishes. The exterior demolition includes removing all existing finishes, stone veneer, and siding, which will be replaced with new stone and brick veneer, gutters, fascia, soffit, and vinyl siding.
