EMPLOYEE SPOTLIGHT

Mark Harder

What was your starting position, and with which company?

Project Manager in 2008 for eciConstruction

What is your current position, with which company?

Administrator for eciConstruction

How long have you worked at eci?

14 years +/-? My journey with eci began in 2008 as a PM for a one time fast track project. Then off & on as a PM & PA part time. Until 2015 when I became a full time (PA) Project Administrator.

What is your favorite thing about your job and the company you work for?

I came out of an early retirement to work for eci and I like to share my experiences with the project managers and superintendents. Trouble shooting and problem solving never grows old. The appreciation I feel for my efforts here, is something I hadn't seen in my previous 25 years working in this industry. I am truly blessed to work for this company and "Family"!

Mark's family

Mark's Garden Bounty

What are your hobbies?

Whatever my family's interests are?? We go to everything the kids & grand kids do! Baseball, Wrestling, Soccer, Rodeo, MMA, Wrestling, Football, Hunting, Fishing, Crabbing, Body Surfing, Corn Hole, Swimming, Cart Racing and did I mention WRESTLING!! I garden a little, love to cook, grill & smoke stuff and play golf although not very well.

What is something about you that your co-workers might not know?

My life changed on New Year's Eve, 1983 in Pittsburgh, when I accepted Jesus and proposed to my wife Connie all at the same time. Of course she didn't believe me and made me call my mother @ 2:00 AM. This February will be 40 years. I don't believe it was a coincidence that is also, the same year I met Bill Eichelberger for the first time.

If you were stranded on a deserted island with only one thing, what would you take?

My wife! We can get through anything together! Plus I would never hear the end of it if I was anywhere near a beach and didn't take her with me!

What else is there you would like to share?

Life is short. Enjoy the moment and people around you. Be a giver and not a taker and always give lots of love. Everyone needs more of it!!

Mark's kids, Ryan, Jennifer, Jason & Eric

SCHUYLKILL HAVEN SPORTS CENTER

Steve Lis was the Project Manager for this project for the Schuylkill Area School District. Scott Eichelberger and Nate Goodyear estimated the project, and Gary Smith was the project Superintendent.

The project was a 30,000-square-foot indoor sports complex, consisting of a 50-yard indoor turf field, training area, exercise rooms, and weight training area. Exterior finishes include metal siding, a TPO (Thermoplastic Polyolefin) roof system, thin brick veneer, and radius metal panels. Interior finishes consisted of a poured track with an elevated surface around the perimeter of the turf field, rubber flooring for the weight room and exercise areas, as well as carpet and paint. This project was originally on a 10-month schedule, however, through change orders requested by the owner, eciConstruction created a parking lot for football games and a ticket booth for the football arena, which extended the project's duration to a 14-month schedule.

PSU AIRPORT & FIRE FIGHTING BUILDING (ARFF)

Steve Lis was the Project Manager for the Penn State University Airport. Dave Maldonado and Justin Peachy estimated the project, and Gabe Newman was the Superintendent.

The 13-month project consisted of a cast-in-place foundation, masonry bearings, structural steel bar joists, and decking. Exterior finishes on the project included radius metal roof panels, masonry veneer, ground face and split face veneer, metal radius over the ARFF bays, and standing seam over the office area. Interior finishes included color-stained concrete, interior ground face veneer, casework, countertops, epoxy floors in the ARFF bays, and carpeting in the office.
